Alumni Forum 2020: THE FUTURE OF MEDICINE

Three Robinson alumni working in the fields of dementia, disease and allergy, discuss the latest developments in their respective fields and public understanding of their work. Chaired by Judith Richards, the panel will begin by reflecting on their time at Robinson and how they chose their careers.

Chair: Dr Judith Richards, Senior Member, Robinson College, Consultant Medical Microbiologist, Deputy Director of Infection Control.

Panellists:

Professor Wendy Barclay (Natural Sciences – Biological, 1982), Imperial College London, specialising in virology

Professor Adam Fox (Medicine, 1990), Guy's and St Thomas' Hospitals, London, specialising in paediatric allergy

Professor John O'Brien (Medicine, 1980), Cambridge Neuroscience, specialising in dementia.
