CCTV POLICY AND PROCEDURE

Robinson College uses a Closed Circuit Television (CCTV) system with cameras installed to transmit pictures to the Porters’ Lodge where they can be viewed on a ‘real time’ basis. In addition, recordings are made onto a dedicated CCTV server for replay in the event of an incident.

The aims of the system are:

1. To create a safer working environment for staff and students in the College.

2. To protect property, belonging to the College, students and staff.

The CCTV system is used solely for the purpose of security surveillance and, when necessary, the provision of evidence in support of any enquiry or prosecution that is associated with criminal activity committed on College property, or the misuse of College rooms or equipment. Cameras are not used to infringe an individual’s right to privacy.

Operation of the CCTV controls is restricted to members of the Porters Lodge, the IT Department, the Domestic Bursar, and other persons authorised by him.

Limited access to system, for the Librarian and Maintenance Manager, for the purposes of security surveillance in the areas specific to each of them.

Recordings Procedure

The following procedures, concerning the use and retention of recordings, are to be followed in order to provide an acceptable level of security and accountability, and to ensure the acceptance of recordings in support of criminal proceedings.

1. Recordings are retained on the CCTV server for up to 14 days and are then overwritten.

2. If an incident occurs and it is thought that the CCTV system has some evidence on it, then a copy of the relevant part of the recordings will be made onto the network, and email with a note saying what the incident was, an approximate time, which camera was involved, and the name of the person that saved the footage, should be sent to the Head Porter as soon as possible.

Viewing Recordings

The Domestic Bursar, Head Porter, or person(s) nominated by them, may view recordings. If a recording is viewed a record is to be kept as to who viewed it, when and for what reason.

Any recorded or still images that are requested by the Police in connection with a criminal enquiry will be released to them against an officer’s signature.
If we are asked to retain a recording for evidential purposes, in connection with a criminal activity or disciplinary process, the Head Porter will retain the relevant recordings for as long as is required, which is usually until one month after the finalization of any court or disciplinary proceedings.

Any request by third party to view a CCTV recording must be approved by the Domestic Bursar.

On no account will CCTV recordings be viewed by any unauthorised person, or removed from the Porters Lodge without the specific approval of the Domestic Bursar or Head Porter.

The IT Department, and nominated contractors may view live footage and recordings as required for the purposes of supporting and maintaining the system.

Limited access to system, for the Librarian and Maintenance Manager, for the purposes of security surveillance in the areas specific to each of them. Exporting footage is not permitted and would be referred to the Head Porter to action via the standard procedure.

Staff are informed that misuse or unauthorised use of the CCTV system will be considered as a serious discipline matter.

Additional information

The IT Department is responsible for ensuring that the CCTV equipment is maintained in a suitable condition.

The Head Porter, or a nominated deputy is responsible for ensuring that all faults are reported to the IT Department.

The Head Porter, or a nominated deputy is responsible for destroying any files once its use for evidence has been completed, and for making the relevant entry in the CCTV register.

The Head Porter, or a nominated deputy is responsible for ensuring that the CCTV logbook is kept in a suitable manner. Old logbooks should be kept for a period of one year.
