

CONFERENCE AND FUNCTION WINE LIST 2022 23

The attached list is a selection from our wine cellars and represents specially chosen wines from the main wine-producing areas of the world. Our Catering Manager and Events Team will be pleased to advise you on your selection.

Please check our current stock levels before finally choosing your wines.

We do not recommend that you show your wine choices if printing your own menus as we may have to substitute an alternative wine if your numbers increase. We can print a separate wine menu for your tables on request.

The prices quoted on this list show prices exclusive and inclusive of VAT at 20% and will be subject to change if the rate of VAT changes. The prices quoted are for current stocks and replacements might incur slight increases in price in some cases.
